

FEATURES

LED DIAGNOSTIC DISPLAY Simplifies installation and troubleshooting.

DUAL VOLTAGE CONNECTIONS Increase flexibility by enabling the installer to select the required voltage, within phase, to meet job-site requirements.

Voltage is selectable within phases at the time of installation with the placement of a connector.

- Single Phase: 115V, 208V and 230V
- 3 Phase: 208V, 230V and 460V
- 3 Phase: 575V is a discrete model without field-selectable voltage. Includes factory installed heater.

PROGRAMMABLE AUXILIARY RELAYS

Easily add additional features, such as warning lights/alarms.

PRE-MOTION WARNING ALARM Activates on-board alarm three seconds prior to gate motion.

MECHANICAL BRAKING SYSTEM Adds substantial gate position control at all points in travel. This solenoid-actuated brake system also prevents the gate from being back-driven.

MAXIMUM RUN TIMER Protects against damage to the gate and operator by limiting the unit's runtime to 120 seconds.

EXTERNAL ALARM RESET BUTTON Allows for quick reset of the gate operator when the alarm has been activated.

ADJUSTABLE FRICTION CLUTCH Helps to protect gate and operator from damage should the door meet an obstruction.

ANTI-TAILGATE Prevents unauthorized access. Gate will pause when closing as vehicle pulls onto interrupt loop or breaks photo beam. Once vehicle backs up, gate will continue to close.

QUICK CLOSE Closes the gate immediately after a vehicle pulls off the interrupt loop.

New 2016 UL 325 Gate Guidelines

LiftMaster is committed to helping the industry design, install and service safe gate applications that are tested and certified to meet the most stringent industry safety standards.

What You Need to Know:

- Two monitored safety entrapment protection devices must be installed at each entrapment point, including:
 - The inherent reversing system built in to each LiftMaster Gate Operator
 - LiftMaster Monitored Photo Eyes and/or Edge Sensors*
- Gate operators will now monitor for fault conditions of external entrapment protection devices.
- New regulations go into effect January 2016.
